Describe how proposed land use request will have direct or significant indirect benefit to the Trust and/or its Beneficiaries: KHHA's ho'omaukoku activities under this Land Use Request will enable KHHA to conduct further study of our mauka home lands and strengthen Hawaiian claims to water under the Public Trust doctrine and other water laws. Our further exploration and deeper understanding of the west Kaua'i homelands will bring the Trust one step closer to rehabilitating the aina, reintroducing the ola i ka wai onto Trust home lands, and fulfilling its mission as described in the Hawaiian Homes Commission Act, 1920. This Land Use Request will also demonstrate to our west side community that the Trust is taking steps to improve the Kekaha home lands for eventual sustainable, clean ag use by Trust beneficiaries, including wait listers. Knowledge gained will help minimize risk of inefficient expenditure of funds, time, and resources by the Trust in the future, and help KHHA and DHHL build beneficiary, stakeholder and state agency support, and financial backing for the ultimate implementation of the Plan. Ho'omaukoku activities will protect and improve the land for future ag and pastoral use by beneficiaries and waitlisters, allow KHHA to assist DHHL in raising the necessary infrastructure funds, and provide educational opportunities to beneficiaries and applicants that will prepare them for successful livelihoods in sustainable and clean agriculture.
