# PART I Financial Section

## **Report of Independent Auditors**

The Auditor and Hawaiian Homes Commission State of Hawaii

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the State of Hawai'i, Department of Hawaiian Home Lands (the "Department"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements as listed in the index.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Department's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Department, as of June 30, 2014, and the respective changes in financial position and the respective budgetary comparison for the General Fund and the Hawaiian Home Administration Account for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Emphasis of Matter

As discussed in Note 1, the financial statements of the Department include only the governmental activities, each major fund and the aggregate remaining fund information of the Department, and are not intended to present fairly the financial position of the State of Hawai'i as of June 30, 2014, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### Other Matters

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgeting comparison information on pages 4 through 11 and pages 18 through 19, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Department's basic financial statements. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements.

The combining nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of the Department's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control over financial reporting and compliance.

The following Management's Discussion and Analysis ("MD&A") is designed to provide an overview of the financial performance of the State of Hawai'i, Department of Hawaiian Home Lands (the "Department") for the fiscal year ended June 30, 2014. Please read it in conjunction with the Department's financial statements, which follow this section.

## Financial Highlights for Fiscal Year 2014

- The Department's net position, the amount of assets exceeding liabilities, totaled \$769.1 million.
   Of this amount, \$166.1 million is unrestricted, \$141.6 million is restricted, and \$461.4 million is net investment in capital assets.
- The Department's net position increased \$25 million over the course of this year's operation.
- In fiscal year 2014, the Department's expenses exceeded revenues (before transfers) by \$5 million. In fiscal year 2013, the expenses exceeded revenues (before transfers) by \$16.3 million.
- The total expenses of the Department increased by \$2.1 million, or 4.1%.
- The total fund balance of the Department's governmental funds increased by \$27.7 million.

#### **Overview of the Financial Statements**

This MD&A serves as an introduction to the Department's basic financial statements. The basic financial statements are comprised of three components: (1) department-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information (combining financial statements – nonmajor governmental funds) in addition to the basic financial statements.

The first two statements are department-wide financial statements that provide both long-term and short-term information about the Department's overall financial status and operations.

The fund financial statements focus on individual parts of the Department, reporting the Department's status and operations in more detail than the department-wide financial statements. These statements detail how general departmental services were financed in the short-term as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

#### **Department-Wide Financial Statements**

The department-wide financial statements provide a broad view of the Department's operations. The statements provide both short-term and long-term information about the Department's financial position and activities, which assists in assessing the Department's economic condition at the end of the fiscal year and operations for the year then ended. These statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. The department-wide financial statements include two statements:

• The statement of net position presents all of the Department's assets and liabilities. The difference between the assets and liabilities are reported as net position.

• The statement of activities presents information showing how the Department's net position changed during the fiscal year. This statement presents a comparison between direct expenses and program revenues for each division of the Department.

The activities of the Department are mostly supported by state appropriation, rental income from commercial land leases and intergovernmental revenues. The Department's basic services fall under this type of activity.

## **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Department uses fund accounting to ensure and demonstrate compliance with legal requirements.

The fund financial statements provide more detailed information about the Department's status and operations. Certain of the Department's funds were established under State Law or by bond covenants. Other funds of the Department are established by the Hawaiian Homes Commission Act. These funds manage money for particular purposes.

The Department only has governmental funds which finance the Department's basic services. Governmental funds are used to account for essentially the same functions reported as governmental activities in the department-wide financial statements. However, unlike the department-wide financial statements, the fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Department's short-term financing requirements.

Because the focus of fund financial statements is narrower than that of the department-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the department-wide financial statements. By doing so, readers may better understand the long-term impact of the Department's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Department has fifteen governmental funds, eight of which are separately disclosed as major funds for presentation purposes. Each major fund is presented in a separate column in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance. These funds are briefly described as follows:

- **General Fund** The general fund is authorized and appropriated by the State Legislature each year for planning, development, management and general support for the Hawaiian Homestead Program.
- Hawaiian Home General Loan Fund Act 249, SLH 1986, amended this revolving loan fund and
  consolidated all loan funds other than the Hawaiian Home Loan Fund in 1986. The major source
  of receipts for this fund is through principal repayment. The Department can make loans from the
  revolving funds for the construction of homes, home repairs or additions, or for the development
  and operation of a farm, ranch or agriculture operation.

- Hawaiian Home Lands Trust Fund This fund was established by Act 14, Special Session 1995 which settles all claims made on behalf of the Hawaiian Home Land Trust against the State between August 21, 1959 and July 1988. It requires that the State make twenty annual deposits of \$30 million or their discounted equivalent into the Hawaiian Home Lands Trust Fund. Proceeds of the fund may be used by the Department for capital improvements and other purposes undertaken in furtherance of the Hawaiian Homes Commission Act of 1920, as amended.
- Hawaiian Home Operating Fund This fund was established through a merger of the Hawaiian Home Development Fund and Hawaiian Home Operating Fund in 1986. Any interest or earnings arising out of investments from the Hawaiian Home Loan Fund are to be credited to and deposited into the Hawaiian Home Operating Fund. All monies received by the Department from any other source, other than those prescribed in other funds of the Hawaiian Homes Commission Act, are deposited into this fund. The Department uses the fund for the construction, operation and maintenance of revenue-producing activities that are intended to serve principally occupants on Hawaiian home lands. The fund is also used to finance improvements and developments necessary to serve present and future occupants of Hawaiian home lands.
- Hawaiian Home Receipts Fund All interest monies from loans or investments received by the
  Department from any fund, except the Hawaiian Home Loan Fund, Hawaiian Home Administration
  Account, Native Hawaiian Rehabilitation Fund, Department of Hawaiian Home Lands Revenue Bond
  Special Fund and Hawaiian Home Lands Trust Fund, are deposited into this fund. This fund serves
  as a clearing fund at the end of each quarter. All monies in this fund are transferred to other funds
  as authorized by the Hawaiian Homes Commission Act.
- Hawaiian Home Administration Account The revenue sources of this fund are the entire receipts
  from any leasing or other dispositions of "available lands" and any interest or other earnings arising
  out of investments from this fund. The Department expends the monies for salaries and all other
  administrative expenses of the Department, excluding capital improvements, in the absence of
  general funds appropriated for operating and administrative costs.
- Federal Grants The Department is the recipient of an annual block grant under the Native
  American Housing Assistance and Self-Determination Act of 1996 ("NAHASDA"). The U.S.
  Department of Housing and Urban Development is the cognizant entity of the NAHASDA grant in
  carrying out affordable housing activities for Native Hawaiian families qualified for this program.
- Hawaiian Home Trust Fund Monies deposited into this fund are available for transfers into any
  other fund or account authorized by the Act or for any public purpose to further the purposes of the
  Act. Public purpose includes using the Hawaiian Home Trust Fund as a reserve for loans insured
  or guaranteed by the U.S. Department of Housing and Urban Development ("HUD") Federal Housing
  Administration, Veteran Administration or any other federal agency authorized to insure or guarantee
  loans. A major portion in the Hawaiian Home Trust Fund is the reserve for loans insured by the HUD
  Federal Housing Administration.

The accompanying notes to the financial statements are part of the financial statements. The notes provide additional information that is essential to gain a full understanding of the information provided in the department-wide and fund financial statements.

In addition to the basic financial statements and accompanying notes, this report also presents other supplementary information consisting of the combining balance sheet and combining statement of revenues, expenditures and changes in fund balances in connection with nonmajor governmental funds and schedule of expenditures of federal awards.

## Financial Analysis of the Department as a Whole

#### **Net Position**

The Department's total net position increased by \$25 million to \$769.1 million between fiscal year 2014 and 2013, primarily due to the \$30 million annual settlement payment from the State of Hawai'i in accordance with Act 14, SP SLH 1995. A large portion of the Department's net position (60%) reflects its investment in capital assets such as land, buildings, infrastructure, furniture and equipment, and construction-in-progress. The Department uses these capital assets to provide improvements on a special class of public lands, which are leased to native Hawaiians; consequently, these assets cannot be sold. Although the Department's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

## **Change in Net Position**

The Department's total program revenues increased from \$33.0 million in 2013 to \$36.5 million in 2014 (see statement of activities). Approximately 31.9% of the Department's program revenues came from interest income, 4.7% came from home sales and land development, 15.9% came from grants and contributions, 46.4% came from the general lease program and 1.1% came from other sources. Total general revenues increased by 31.5% to \$41.3 million due to the State of Hawai'i General Fund and Bond Funds allotments for Kapolei community development conservation heritage center multi-purpose facility and phase IV of the Waimanalo homestead community center. The total cost of the Department's programs increased by \$2.1 million, or 4.1%. The Department received \$30 million as part of its annual settlement payment with the State of Hawai'i in accordance with Act 14, SP SLH 1995. Cash was transferred from the Department of Budget and Finance as its annual installment for the Hawaiian home lands settlement payment.

#### **Statement of Activities**

The statement of activities presents how the Department's net position changed during the current fiscal year. Revenues and expenses are reported as soon as the underlying event occurs, regardless of the timing of the related cash flows. As such, the statement includes information for some items that will result in cash flows in future fiscal periods (e.g., uncollected lease payments).

As noted, net position increased by \$25 million from operations, a 3.4% growth this year, compared to an increase of \$13.7 million, a 1.9% growth in fiscal year 2013. The fiscal year 2014 increase is primarily due to a 40% growth of State of Hawaii General Fund appropriation, while total expenses increased by 4.1%, due to home construction.

## Financial Analysis of the Department's Governmental Funds

#### **Governmental Funds**

The focus of the Department's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Department's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2014, the Department's governmental funds reported a combined increase in fund balance of \$27.7 million. The changes in fund balance for the governmental funds differ from the change in net position for governmental activities. The differences relate to certain financial resources and expenditures such as debt financing and capital outlays that are included in the changes in fund balances but are not reported in the changes in net position.

Overall, the assets for the Department increased by \$47.1 million, liabilities increased by \$19.4 million, and fund balance increased by \$27.7 million.

## **Budgetary Highlights**

In fiscal year 2014, the General Fund Account received appropriations amounting to \$9.6 million. This amount was expended according to the budget except \$190,049 was lapsed.

In the Hawaiian Home Administration Account, the actual revenue exceeded the budgeted amount by \$3.1 million and expenditures were \$10.5 million less than the budgeted amount. The overall favorable variance of \$13.6 million was created by expenditure control measures.

## **Capital Asset and Debt Administration**

## **Capital Assets**

At the end of fiscal year 2014, the Department had invested \$764.2 million in a broad range of capital assets, including land, building and improvements, furniture and equipment, and infrastructure. This amount represents a net increase (including additions, deductions and reclassifications) of \$12.7 million, or 1.7%, over last year.

In fiscal year 2014, the Department expended \$12.7 million for various capital projects, including \$5.3 million for East Kapolei development, \$5.1 million for Lalamilo Housing development, and \$2.3 million for various other projects.

## Long-Term Debt

In 2009, the Department issued Revenue Bonds, Series 2009, to fund the planning, design and construction projects on the Hawaiian Home Lands. The Department also has a note payable to reimburse the Housing and Community Development Corporation of Hawai'i for infrastructure costs over a 15-year period. The Department is also obligated to repay a portion of the State general obligation bonds issued on the Department's behalf through reimbursable general obligation bonds.

## **Economic Factors and Next Year's Budgets**

Revenues generated from general leases, revocable permits, licenses and right of entry agreements are projected to total \$8.6 million. This represents an increase of 0.6% from fiscal year 2014 actual. The increase is primarily due to scheduled increase of rents and fees.

#### **Currently Known Facts or Decisions**

As stewards of the Hawaiian Home Lands trust, the Department of Hawaiian Home Lands remains focused on the core mission of returning native Hawaiians to the land, as envisioned by their founder Prince Jonah Kūhiō Kalaniana'ole. In their ongoing effort to effectively manage the trust, the Department spent much of this fiscal year laying the foundation for major changes that will have profound impacts on the future of the trust and the beneficiaries they serve. At the top of their list of priorities is stabilizing department funding in light of the Nelson v. Hawaiian Homes Commission ruling and in anticipation of the end to Act 14 settlement payments in fiscal year 2015. This responsibility is a delicate balancing act as the Department also strives to meet an ever growing beneficiary demand for homesteading opportunities.

In addition to stabilizing department funding, their priorities also includes improving service to their beneficiaries by increasing affordability of their housing products, supporting their existing communities, reviving their agricultural homesteading program, and maximizing management of their natural resources including water and renewable energy resources.

## 1. Organization and Summary of Significant Accounting Policies

## **Financial Reporting Entity**

The State of Hawai'i, Department of Hawaiian Home Lands (the "Department"), is headed by the Hawaiian Homes Commission. The Department was established by Section 24 of Act 1 (the Hawai'i State Government Reorganization Act of 1959), Second Special Session Laws of Hawai'i 1959, and is responsible for the administration of the Hawaiian Homes Commission Act of 1920 enacted by the United States Congress. The Hawaiian Homes Commission Act ("HHCA") sets aside certain public lands as Hawaiian home lands to be utilized in the rehabilitation of native Hawaiians. The financial statements include the public trusts controlled by the Hawaiian Homes Commission.

The Department is part of the executive branch of the State of Hawai'i (the "State"). The Department's financial statements are intended to present the financial position and the changes in financial position, of only that portion of the governmental activities, each major fund, and the aggregate remaining fund information of the State that is attributable to the transactions of the Department. The State Comptroller maintains the central accounts for all State funds and publishes financial statements for the State annually which includes the Department's assets, liabilities, net position and financial activities.

The accompanying financial statements of the Department have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") for state and local governments as prescribed by the Governmental Accounting Standards Board ("GASB").

#### **Department-wide Financial Statements**

The department-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to customers who purchase, use or directly benefit from goods or services provided by a given function. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.

Appropriations and other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues.

Net position is restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation.

#### **Governmental Fund Financial Statements**

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Department considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end. Principal revenue sources considered susceptible to accrual include lease payments, sales, federal grants and interest on loans and investments, and interest receivable. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditure, as well as expenditures related to compensated absences, are recorded only when payment is due.

As of June 30, 2014, fund balances of the governmental funds are classified as follows:

- Nonspendable amounts that cannot be spent because they are either in nonspendable form or they are legally or contractually required to be maintained intact.
- Restricted amounts that are restricted for specific purposes due to constitutional provisions
  or enabling legislation or constraints that are externally imposed by creditors, grantors,
  contributors, or laws or regulations of other governments.
- Committed amounts that can be used only for specific purposes determined by a formal
  action of the State Legislature. The State Legislature is the highest level of decision-making
  authority for the Department. Commitments may be established, modified or rescinded only
  through formal acts by the State Legislature.
- Assigned amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Department's adopted policy, only the Hawaiian Homes Commission may assign amounts for specific purposes.
- Unassigned all other spendable amounts.

When both restricted and unrestricted balances are available for use, it is the Department's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted classifications can be used.

## **Fund Accounting**

The accounts of the Department are organized on the basis of funds, each of which is considered a separate accounting entity. The financial activities of each fund are accounted for with a separate set of self-balancing accounts which represent each fund's assets, liabilities, fund balance, revenues and expenditures.

The financial activities of the Department that are reported in the accompanying governmental fund financial statements have been classified into the following major governmental funds:

**General fund** – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The annual operating budget as authorized by the State Legislature provides the basic framework within which the resources and obligations of the general fund are accounted for.

**Special revenue funds** – Special revenue funds are used to account for proceeds of specific revenue sources that are restricted to expenditures for specified purposes. Revenues are primarily from general leases, licenses and permits granted for commercial, residential, agricultural and pastoral uses, and interest and investment income. The Department's major special revenue funds are as follows:

- Hawaiian Home General Loan Fund The Hawaiian Home General Loan Fund is used to account for Department loans made to native Hawaiian homesteaders.
- Hawaiian Home Lands Trust Fund The Hawaiian Home Lands Trust Fund accounts for funds from the State to be expended by the Department, as provided by law upon approval by the Commission and used for capital improvements and other purposes undertaken in furtherance of the Hawaiian Homes Commission Act of 1920.
- Hawaiian Home Operating Fund The Hawaiian Home Operating Fund is used to account for operations of the Department and is funded by monies transferred from the Hawaiian Home Receipts Fund.
- Hawaiian Home Receipts Fund The Hawaiian Home Receipts Fund is used to account for receipts of investment interest and loan interest payments from the Department loans to homesteaders.
- Hawaiian Home Administration Account The Hawaiian Home Administration Account is used to account for commercial general leases, revocable permits and licenses of "available" lands as defined under the HHCA. Lease revenues are used to fund operations of the Department.
- Federal Grants The Federal Grants fund is used to account for grants the Department has with the Federal Government.
- Hawaiian Home Trust Fund The Hawaiian Home Trust Fund is used to account for the loan
  principal and interest payments the Department collects on assumed loans from HUD as part
  of the mortgage loan insurance agreement. The amounts maintained in this fund provide for
  payment of any mortgage insurance claims and expenditures incurred by HUD in connection
  with the lessee borrowings.

## **Appropriations**

An authorization granted by the State Legislature permitting a State agency, within established fiscal and budgetary controls, to incur obligations and to make expenditures. Appropriations are allotted quarterly. The allotted appropriations lapse if not expended by or encumbered at the end of the fiscal year, except for allotted appropriations related to capital projects.

#### **Encumbrances**

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental fund types. Encumbrances at June 30, 2014 for the Department's governmental funds were as follows:

|                        | Contracts |            | Claims |            |
|------------------------|-----------|------------|--------|------------|

## Equity in Cash and Cash Equivalents and Investments Held in State Treasury

The State Director of Finance is responsible for the safekeeping of cash and investments in the State Treasury in accordance with State laws. The Director of Finance may invest any monies of the State, which in the Director's judgment, are in excess of the amounts necessary for meeting the immediate requirements of the State. Cash is pooled with funds from other State agencies and departments and deposited into approved financial institutions or in the State Treasury Investment Pool System. Funds in the investment pool accrue interest based on the average weighted cash balances of each account.

The State requires that depository banks pledge as collateral, government securities held in the name of the State for deposits not covered by federal deposit insurance.

GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, requires disclosures over common deposit and investment risks related to credit risk, interest rate risk, and foreign currency risk. Investments can be categorized by type, maturity and custodian to determine the level of interest rate, credit and custodial risk assumed by the Department. However, as these funds are held in the State cash pool, the Department does not manage these investments and the types of investments and related interest rate, credit and custodial risks are not determinable at the Department level. The risk disclosures of the State's cash pool are included in the State's Comprehensive Annual Financial Report ("CAFR") for the fiscal year ended June 30, 2014. The State's CAFR can be found at the Department of Accounting and General Services' ("DAGS") website: http://ags.hawaii.gov/accounting/annual-financial-reports/.

Cash and short-term investments held outside of State Treasury are held in a financial institution outside of the State of Hawai'i.

#### **Restricted Cash and Investments**

Cash and cash equivalents held with an escrow agent and invested until the repayment of certain obligations have been classified as restricted assets. Cash equivalents are primarily comprised of cash held in money market funds.

The Department invests funds held by Wells Fargo related to the capital lease obligation. The investments are carried at fair value and are valued at the last reported sale price on the last business day of the year or at the last bid price if no sale was reported on that date. Unrealized

gains are considered investment income and the funds are restricted to funding future capital lease payments.

#### **Due from State**

The State Director of Finance is responsible for the safekeeping of all cash in the State Treasury in accordance with State laws. Currently, separate accounts are not maintained in the State Treasury for the Department's general operating and capital appropriations. Although these appropriations are available to the Department to expend, custody and ownership of the funds remains with the State. Unspent general and capital appropriations that continue to be available to the Department for expenditure at the end of the fiscal year are reported as due from state in the accompanying fund and department-wide financial statements.

#### **Inventory of Homes for Sale and Development**

Inventory of homes for sale and development are stated at the lower of cost or estimated net realizable value and includes the costs of land development and home construction, capitalized interest, real estate taxes, and direct overhead costs incurred during development and home construction.

#### **Intrafund and Interfund Transactions**

Significant transfers of financial resources between activities and appropriations included within the same fund are eliminated. Transfers of revenues from funds authorized to receive them to funds authorized to expend them have been recorded as operating transfers in the financial statements.

All interfund transfers are reflected in the governmental fund financial statements but are eliminated in the departmental financial statements.

## **Capital Assets**

Capital assets, which include land, buildings, improvements, equipment and infrastructure assets, are reported in the departmental financial statements. The capitalization thresholds are \$5,000 for equipment, and \$100,000 for infrastructure, and buildings and improvements with estimated useful lives of greater than one year. Maintenance and repairs are charged to operations when incurred. Purchased and constructed capital assets are valued at historical cost or estimated historical cost. Donated fixed assets are recorded at their fair market value at the date of donation.

Capital assets are depreciated on the straight-line method over the assets' estimated useful life as follows:

| Machinery and equipment    | 5 – 7 years   |
|----------------------------|---------------|
| Vehicles                   | 5 years       |
| Buildings and improvements | 15 – 40 years |
| Infrastructure             | 30 years      |

The Department also has land in various parts of the State, some of which were transferred to it at no cost or at nominal cost.

#### **Temporary Deposits Payable**

As part of the mortgage loan insurance agreement, the Department assumes delinquent mortgage loans from HUD. The temporary deposits payable balance represents the amount of loans assumed, less any payments made to HUD, for the payment of future mortgage insurance claims.

#### **Accumulated Vacation and Sick Leave**

Vacation pay is accrued as earned by employees. Vacation pay can accumulate at the rate of one and three-quarters working days for each month of service up to 720 hours at calendar year-end and is convertible to pay upon termination of employment. As accrued vacation does not require the use of current financial resources, it is not reported in the governmental funds balance sheet.

Sick leave accumulates at a rate of one and three-quarter days for each month of service without limit, but may be taken only in the event of illness or other incapacitation and is not convertible to pay upon termination of employment. Accordingly, accumulated sick leave is not included in the Department's statement of net position or governmental fund balance sheet. However, an employee who retires or leaves government service in good standing with sixty days or more in unused sick leave is entitled to additional service credit in the Employees' Retirement System of the State of Hawai'i ("ERS"). Accumulated sick leave as of June 30, 2014, was approximately \$4.647.000.

#### Lease Rents and Interest Income

The Department's governmental fund financial statement recognizes lease rent and mortgage interest of its governmental funds as revenues when they are measurable and available. The available criterion is satisfied when revenues are collectible during the period or soon enough thereafter to pay liabilities of the current period. Amounts not collected within 60 days after the end of the year approximated \$5,224,000 as of June 30, 2014, and are recorded as deferred revenue in the governmental funds balance sheet. The departmental financial statements present lease rents and mortgage interest under the accrual method of accounting.

## **Use of Estimates**

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

## **New Accounting Pronouncements**

In 2014, the Department adopted GASB Statement No.65, *Items Previously Reported as Assets and Liabilities*. This Statement provides financial reporting guidance for proper classification and recognition of previously reported assets and liabilities as deferred inflows or deferred outflows of resources. This Statement did not have a material effect on the Department's financial statements.

The GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions*. The Statement revises and established new financial reporting requirements for most governments that provide their employees with pension benefits. The requirements of this Statement are effective for reporting periods beginning after June 15, 2014. Management has not yet determined the effect this Statement will have on the Department's financial statements.

The GASB issued Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68 and are effective for periods beginning after June 15, 2014. The Department has not yet determined the effect this Statement will have on its financial statements.

## 2. Budgeting and Budgetary Control

The Department's annual budget is prepared on the cash basis utilizing encumbrance accounting. Revenue estimates are provided to the State Legislature at the time of budget consideration and are revised and updated throughout the fiscal year. Amounts reflected by the Department as budgeted revenues are those estimates as compiled by the State Director of Finance. Budgeted expenditures for the Department's general fund, and the Hawaiian Homes Administration Account, a special revenue fund, are provided to the Department of Budget and Finance, State of Hawai'i, for accumulation with budgeted amounts of the other State agencies and included in the Governor's executive budget that is subject to legislative approval. In addition, the budget for all expenditures of the Department's funds is also presented annually to the Hawaiian Homes Commission for approval.

To the extent not expended or encumbered, general fund appropriations generally lapse at the end of the fiscal year for which the appropriations were made. The State Legislature specifies the lapse date and any other particular conditions which may terminate the authorization for other appropriations.

For purposes of budgeting, the Department's budgetary fund structure and accounting principles differ from those utilized to present the financial statements in conformity with accounting principles generally accepted in the United States of America.

Since the budgetary basis differs from accounting principles generally accepted in the United States of America, budget and actual amounts in the statements of revenues and expenditures – budget and actual – general fund and the Hawaiian Home Administration Account, are presented on the budgetary basis. A reconciliation of the general fund and the Hawaiian Home Administration Account revenues in excess of expenditures on a budgetary basis for the year ended June 30, 2014, to revenues in excess of expenditures presented in conformity with accounting principles generally accepted in the United States of America, is set forth below.

Under Section 78-13 Hawai'i Revised Statutes ("HRS"), staff salaries and wages amounting to approximately \$360,000 in the Hawaiian Home Administration Account, for the period from June 16, 2014 through June 30, 2014, are to be funded with monies budgeted for fiscal year 2015. Accordingly, these amounts are excluded from the statements of revenues and expenditures – budget and actual of the Hawaiian Home Administration Account, but are included in the departmental and governmental fund financial statements in accordance with accounting principles generally accepted in the United States of America.

Salaries and wages amounting to approximately \$320,000 in the Hawaiian Home Administration Account, for the period from June 16, 2013 to June 30, 2013, were funded with monies budgeted for fiscal year 2014. Accordingly, these amounts are included in the statements of revenues and expenditures – budget and actual of the Hawaiian Home Administration Account, for the year ended June 30, 2014.

The following schedule reconciles the budgetary amounts of the General Fund and the Hawaiian Home Administration Account to the amounts presented in accordance with accounting principles generally accepted in the United States of America (GAAP basis).

|                                                                               | General<br>Fund | Ac | Hawaiian<br>Home<br>Iministration<br>Account |

#### 3. Cash and Investments

Equity in cash and cash equivalents and investments include monies in the State Treasury. For financial statement reporting purposes, cash and cash equivalents and investments consist of cash, time certificates of deposit, money market accounts, repurchase agreements, and U.S. government securities.

The Department maintains cash related to the capital lease obligation and revenue bonds in cash held outside of the State Treasury through a financial institution outside of the State of Hawai'i. At June 30, 2014, the carrying balance of the Department's cash outside of the State Treasury aggregated \$6,204,126, which exceeds federal deposit insurance limits.

#### 4. Loans Receivable

Loans receivable consist of approximately 1,400 loans made to native Hawaiian lessees for the purposes specified in the Hawaiian Homes Commission Act. Loans are for a maximum amount of approximately \$367,000 and for a maximum term of 40 years. Loan payments expected to be collected within the next fiscal year approximates \$2,346,000. Interest rates on outstanding loans range up to 10%. The Department's loan portfolio consists of loans that the Department has originated and that generally are collateralized by improvements on the leased properties located in the State. Loan commitments as of June 30, 2014 were approximately \$1,204,000. The Department has provided an allowance for loan losses of approximately \$14,991,000 as of June 30, 2014. The allowance for loan losses is a valuation reserve, which has been provided through charges to operations. The reserve is based on management's assessment of loan balances deemed uncollectible as of June 30, 2014.

## 5. Inventory of Homes for Sale and Development

As of June 30, 2014, the Department constructed and sold a total of 583 homes to native Hawaiians in various locations throughout Hawaii.

Under certain circumstances, the Department purchases homes from former lessees due to voluntary and involuntary cancellations of land leases. The homes are subsequently resold to qualified lessees. During the year ended June 30, 2014, the Department had purchased homes from former lessees with costs aggregating \$4,489,000.

#### 6. Capital Assets

Capital assets activity for the year ended June 30, 2014, was as follows:

Obligations for accrued vacation are generally liquidated by the general fund, the Hawaiian Home Operating Fund and the Hawaiian Home Administration Account.

#### 8. Notes Payable

## **Land Acquisition / Purchase Note Payable**

In December 2004, the Department entered into a transfer agreement with the Housing and Community Development Corporation of Hawai'i ("HCDCH"), State of Hawai'i, in connection with the acquisition of approximately 1,800 acres of land consisting of four properties on three islands by the Department. A portion of the land is partially developed and is intended to be utilized for 3,500 homes for native Hawaiians.

As part of the transfer agreement, the Department must pay \$2.2 million a year for 15 years, for a total of \$33 million, in the form of a note, to reimburse the HCDCH, for infrastructure costs at three of the properties. This note is non-interest bearing. At June 30, 2014, the Department owed \$11,500,000 to HCDCH. The note will be repaid with monies in the Department's Hawaiian Home Land Trust Fund. In July 2013, the Department executed an amendment that reduces the annual payments to \$1.7 million through 2020 and the final payment totaling \$1.3 million is due in 2021.

The annual payment requirements of the notes are as follows:

|                      | Purchase<br>Note Payable | е |

#### Note Payable to Department of Business, Economic Development and Tourism

In June 2009, the Department entered into a loan agreement with the Department of Business, Economic Development and Tourism ("DBEDT") for the environmental remediation of real property located in Ewa Beach, Hawai'i. The loan agreement was amended in December 2013 and was payable in two installments of \$770,000 and \$1,000,000 no later than March 1, 2014 and June 30, 2014, respectively. The note included a 20% discount not to exceed \$200,000 and was non-interest bearing. The note was repaid as of June 30, 2014.

## 9. Capital Lease Obligation

In December 2006, the Department entered into a 25-year facility lease agreement with Wells Fargo Bank, National Association (the "lessor"), to lease an office facility, which was constructed and completed in April 2008. The Department was required to make semi-annual interest-only payments through May 2009 and annual principal and interest payments beginning November 2009. Interest on the outstanding balance accrues at various rates throughout the term of the lease. At June 30, 2014, the interest rate was 2.21%. Upon expiration of the lease, the title of the facility will be transferred from the lessor to the Department. The following is a schedule by years of future minimum lease payments related to this agreement:

| Year ending June 30,                    |                  |
|-----------------------------------------|------------------|
| 2015                                    | \$<br>1,713,000  |

## 10. Bonds Payable

The following are the revenue bonds issued by the Department and portions of the State general obligation bonds allocated to the Department under acts of various Session Laws of Hawai'i. The revenue bonds are payable from and collateralized by the Department's revenues generated from certain capital improvement projects. The general obligation bonds are backed by the full faith, credit and taxing power of the State. Repayments of allocated bond debts are made to the State General Fund. Details of the Department's revenue and allocated general obligation bonds as of June 30, 2014, are as follows:

| \$65,992 Series CW refunding bonds dated August 1, 2001; \$2,118 was refunded on June 15, 2005; due in annual principal installments of \$4,679 to \$7,273 from August 1, 2005 to August 1, 2015; interest at 0.82% to 0.88% payable semi-annually.              |   |

#### 11. Employee Benefit Plans

Substantially all employees of the Department participate in the State's various employee benefit plans, including the Employees' Retirement System ("ERS") of the State of Hawai'i, postemployment healthcare and life insurance plan, and a deferred compensation plan. For more information on the State's benefit plans, refer to the State of Hawai'i and ERS' CAFR. The State's CAFR can be found at the DAGS website: http://ags.hawaii.gov/accounting/annual-financial-reports/. The ERS CAFR can be found at the ERS website: http://ers.ehawaii.gov/resources/financials.

#### **Employees' Retirement System**

The ERS is a cost-sharing, multiple-employer public employee retirement plan. The ERS provides retirement benefits as well as death and disability benefits. All contributions, benefits and eligibility requirements are established by Chapter 88, HRS, and can be amended by legislative action.

## **Deferred Compensation Plan**

The State offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all State employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

All plan assets are held in a trust fund to protect them from claims of general creditors. The State has no responsibility for loss due to the investment or failure of investment of funds and assets in the plan, but has the duty of due care that would be required of an ordinary prudent investor.

#### Post-Employment Healthcare and Life Insurance Benefits

The State contributes to the Hawai'i Employer-Union Health Benefits Trust Fund ("EUTF"), an agent multiple-employer defined benefit plan. The EUTF was established to provide a single delivery system of health benefits for state and county workers, retirees, and their dependents. The eligibility requirements for retiree health benefits are based on date of hire.

## State Policy

The actuarial valuation of the EUTF does not provide other postemployment benefits ("OPEB") information by department or agency. Accordingly, the State's policy on the accounting and reporting for OPEB is to allocate a portion of the State's Annual Required Contribution ("ARC"), interest, and any adjustment to the ARC, to component units and proprietary funds that are reported separately in stand-alone departmental financial statements or in the State's CAFR. The basis for the allocation is the proportionate share of contributions made by each component unit and proprietary fund for retiree health benefits.

#### Amount of Contributions Made

Contributions are financed on a pay-as-you-go basis and the Department's contributions for the years June 30, 2014, 2013 and 2012 were approximately \$1,076,000, \$1,013,000 and \$1,022,000, respectively.

## Required Supplementary Information and Disclosures

The State's CAFR includes the required footnote disclosures and supplementary information on the State's OPEB plan.

#### 12. General Leases and Licenses

The Department's general leasing operations (Section 204 of Hawaiian Homes Commission Act of 1920, as amended) consist principally of the leasing of its Hawaiian home lands. The general leases have varying terms extending through 2071.

The future minimum lease income from general leases as of June 30, 2014, is as follows:

| Year ending June 30, |                |   |
|----------------------|----------------|---|
| 2015                 | \$ 8,409,000   | 1 |

## State of Hawai'i Department of Hawaiian Home Lands Notes to Financial Statements June 30, 2014

## 13. Commitments and Contingencies

## Litigation

The Department is a party to various legal proceedings, the outcome of which, in the opinion of management, will not have a material adverse effect on the Department's financial position. Losses, if any, are either covered by insurance or will be paid from legislative appropriations of the State's General Fund.

For purposes of securing information about the Hawaiian Home Lands Trust Individual Claims discussed as a separate note in prior audits of the Department, please see the discussion about Individual Claims and the lawsuits relating to them, including the claims against the State and the Department in Kalima v. State of Hawai'i, Civil No. 99-4771-12, in the State's CAFR on the DAGS website.

### Insurance

The State maintains certain insurance coverage to satisfy bond indenture agreements as well as for other purposes, but is substantially self-insured for all other perils including workers' compensation. The State records a liability for risk financing and insurance related losses, including incurred but not reported, if it is determined that a loss has been incurred and the amount can be reasonably estimated. The State retains various risks and insures certain excess layers with commercial insurance companies. At June 30, 2014, the State recorded an estimated loss for workers' compensation, automobile and general liability claims as long-term liabilities as the losses will not be liquidated with currently expendable available financial resources. The estimated losses will be paid from legislative appropriations of the State's General Fund. The Department's portion of the State's workers' compensation liability was not material at June 30, 2014.

## **Guaranteed and Insured Loans**

As of June 30, 2014, the Department was contingently liable for approximately \$45,031,000 in loans originated primarily by the U.S. Department of Agriculture Rural Development for which the Department has guaranteed repayment. Approximately \$7,242,000 of these loans have been reported delinquent as of June 30, 2014.

The Department is also a party to a mortgage loan insurance agreement with the U.S. Department of Housing and Urban Development ("HUD"). The agreement provides that HUD will perform underwriting processing for the insurance program and will administer an insurance fund for mortgages originated and held by HUD-approved lenders. The Department will maintain and provide the necessary and proper funds for payment of any mortgage insurance claims and expenditures incurred by HUD in connection with the lessee borrowers. The Department has reserved cash of approximately \$11,250,000 in the special revenue fund and has deposited \$150,000 with HUD. As of June 30, 2014, loans outstanding totaled approximately \$412,005,000 under this agreement, of which approximately \$34,753,000 has been reported as delinquent.

The Department is also a party to a Native Hawaiian Home Loan Guarantee Program (HUD Section 184) agreement with HUD. The agreement provides that HUD will guarantee certain loans in which homestead leases issued by the Department pursuant to the Hawaiian Homes Commission Act is used as collateral for the loan. As of June 30, 2014, loans outstanding totaled approximately \$73,527,000 under this agreement, of which approximately \$3,626,000 has been reported as delinquent.

## State of Hawai'i Department of Hawaiian Home Lands Notes to Financial Statements June 30, 2014

As of June 30, 2014, the Department was also contingently liable for approximately \$7,746,000 in loans originated by financial institutions and other lenders for which it had guaranteed repayment. Approximately \$1,970,000 of these loans has been reported delinquent as of June 30, 2014.

As of June 30, 2014, the Department paid approximately \$6,355,000 for delinquent mortgage loan payments of lessees. These payments are carried as loans receivable from lessees and bear similar terms as stipulated in the lessees' mortgage notes with the lenders.

The Department has certain loans for which the collateral for the loans is not covered by casualty insurance. The number of such loans was not known as of June 30, 2014.

## Other

Pursuant to Act 14, Special SLH 1995, the Hawaiian Home Lands Trust Fund was established to account for funds to be paid by the State beginning in the fiscal year ended June 30, 1996. The primary purpose of Act 14 is to resolve controversies and claims related to the Hawaiian Home Lands Trust which arose between August 21, 1959 and June 30, 1988.

Act 14 requires the State to make twenty annual payments of \$30,000,000 in cash or such other consideration as agreed to between the State and the Department of Hawaiian Home Lands. Interest is determined as provided in Act 14 on the unpaid balance of any funds due, but not appropriated, by the end of each respective fiscal year. The Department received \$30,000,000 in the current year as a transfer from the Department of Budget and Finance, State of Hawaii, to the Hawaiian Home Lands Trust Fund. As of June 30, 2014, the Department received approximately \$570,000,000 from the State to the Hawaiian Home Lands Trust Fund.

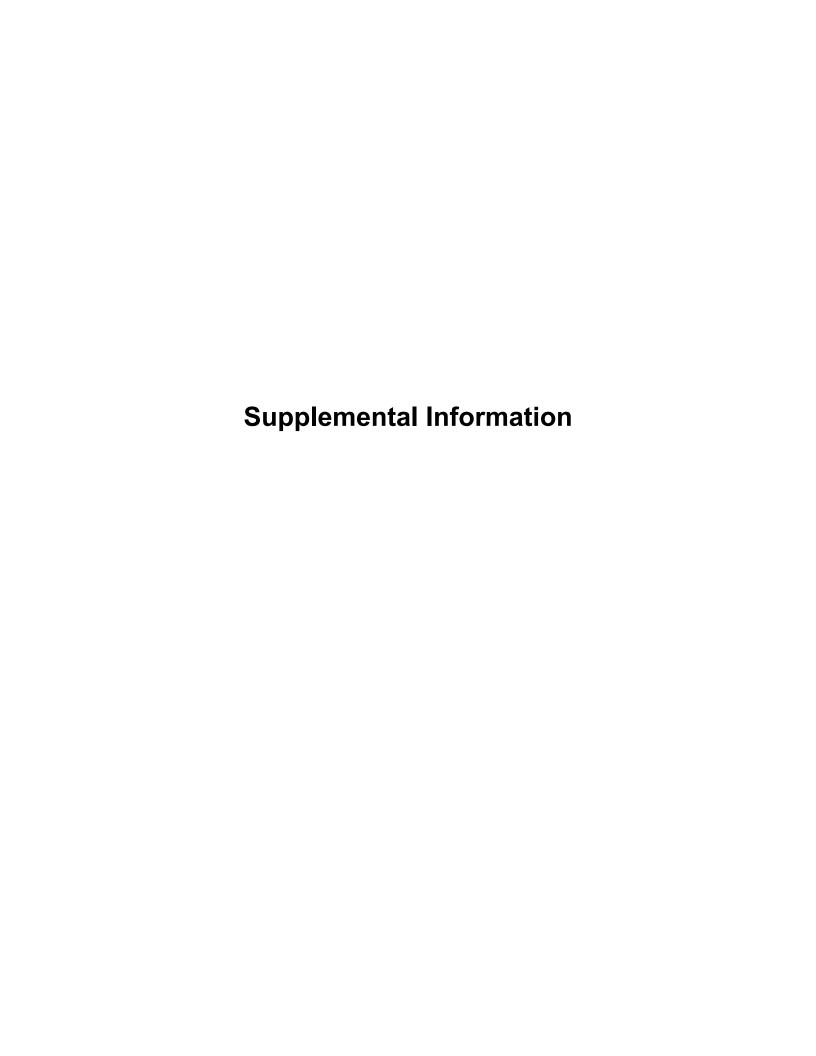

In December 2008, the Department entered into a collaborative financing arrangement with the Office of Hawaiian Affairs, State of Hawai'i ("OHA") in which OHA will provide funds for the Department's use in the planning, design and construction of infrastructure for homesteads for native Hawaiians on properties owned and controlled by the Department. Under the agreement, OHA will pay the Department on an annual basis the lesser of \$3,000,000 or the debt service of the revenue bonds issued by the Department in 2009. As of June 30, 2014, the Department received \$18,000,000 from OHA.

## 14. Assessments for Central Service and Administrative Expenses

The State of Hawai'i has asserted that the Department is liable for its pro rata share of central service and administrative expenses incurred by the State in accordance with Sections 36-27 and 36-30, Hawai'i Revised Statutes. Pursuant to Section 36-31, Hawai'i Revised Statutes, the Department maintains that their funds are trust funds and are not subject to the special fund assessments. Accordingly, no provision for any liability has been made in the accompanying financial statements.

Effective July 1, 1998, Act 27, SLH 1998 amended Section 213 of the Hawaiian Homes Commissions Act and reclassified certain special funds as trust funds.

As of June 30, 2014, the Department's estimate of the accumulated asserted assessments since the inception of the aforementioned law approximated \$22,885,000.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the State of Hawai'i, Department of Hawaiian Home Lands (the "Department") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Department's basic financial statements, and have issued our report thereon dated December 5, 2014.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Department's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Department's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

Accenty LLP

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Report of Independent Auditors on Compliance for Each Major Program and on Internal Control Over Compliance Required by OMB Circular A-133

The Auditor and the Hawaiian Homes Commission State of Hawai'i

## **Report on Compliance for Each Major Federal Program**

We have audited the State of Hawai'i, Department of Hawaiian Home Lands' (the "Department") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Department's major federal programs for the year ended June 30, 2014. The Department's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

## Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

## **Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the Department's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Department's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Department's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the Department complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

## **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Department's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the governmental activities, each major fund, and the aggregate remaining fund information of the financial statements of the Department as of and for the year ended June 30, 2014, and the related notes to the financial statements which collectively comprise the Department's basic financial statements. We have issued our report thereon dated December 5, 2014, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the

auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.
