

Picture
"DHHL" on see-saw with
"Ahupua'a System" - need
to increase ahupua'a system
to balance out DHHL

Make new
development self-
sustaining

Water should
always be a
priority

Yes but at
what price \$

Protect watershed -
Don't build on steep
slopes

E malama i ka wai
How should DHHL
balance development
and protection of
water?

Reserve water
where we know
DHHL will develop

Should
DHHL
develop
where
water is?

Tap fed
funds to
subsidize

Develop and
manage our
own water
systems

By NOT
bundling the
whole cost"

So have to
balance -
water is key
to life

Huge
population
growth is a
problem

Focus on fresh
drinking
water!

Monitor
pollution!

Agree

Stream flow
from mt. to
sea

Monitor
developers

If you take
away developers
then economy
goes down and
jobs are lost

Protect watershed -
Don't build on steep
slopes

Reserve water
where we know
DHHL will develop

Should
DHHL
develop
where
water is?

Tap fed
funds to
subsidize

Develop and
