The Hawaii HomeOwnership Center (HHOC) is a 501(c)(3) non-profit organization with a mission of supporting first-time buyers into sustainable homeownership. HHOC's program components of classes, individual coaching, and post-purchase services provide the foundation that Hawaii homebuyers need to attain homeownership and to keep their homes, too. Over the past 13 years, 1,500 of HHOC's 4,200 members statewide have become homeowners. This is a significant achievement since the majority (57%) of its members were considered "low or moderate income" when they started services with HHOC. HHOC staff works with its clients to reduce debt, improve credit scores and connect them with various assistance programs to make homeownership possible. HHOC has helped make homeownership a reality for many who believed it to be an impossible dream.
