General Plan

General Plan
Statewide Perspective

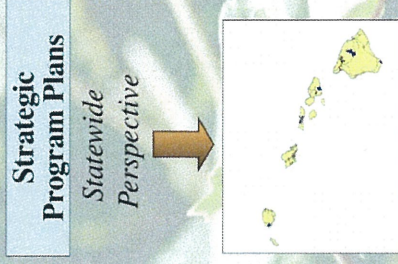

- Established goals (what should be accomplished) and objectives (how are goals accomplished) for DHHL
- Long-term 20-year perspective; updated every 10 years

DHHL Planning System

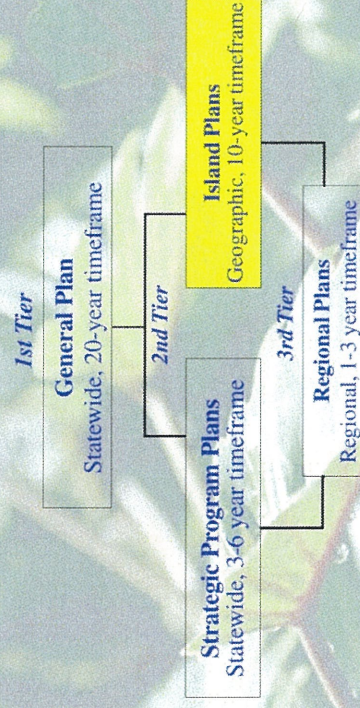

Strategic Plans/Program Plans

- Translates General Plan policies and priorities into specific action plans for each program area
- Statewide focus
- 3-6 year timeframe

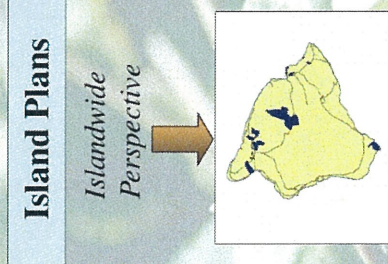

DHHL Planning System

Island Plans

- Establishes land use goals and objectives of the General Plan on each island
- Identifies Island-wide Needs, Opportunities and Priorities
- 10-year planning horizon
- Identifies land use designations for DHHL lands

Land Use Designations

- Residential (Homestead)
- Subsistence Agriculture (Homestead)
- Supplemental Agriculture (Homestead)
- Pastoral (Homestead)
- General Agriculture
- Special District
- Community Use
- Conservation
- Commercial
- Industrial

Regional Plans

Regional Plans

Community Perspective

- Identifies data -- people, lands, and infrastructure of homestead communities and the surrounding region.
- Identifies what DHHL and other landowners are planning to do.
- Mechanism for beneficiary input in the future of homestead communities
- Identifies issues and potential projects
- Identifies Priority Projects determined by the homestead community.

DHHL Planning System

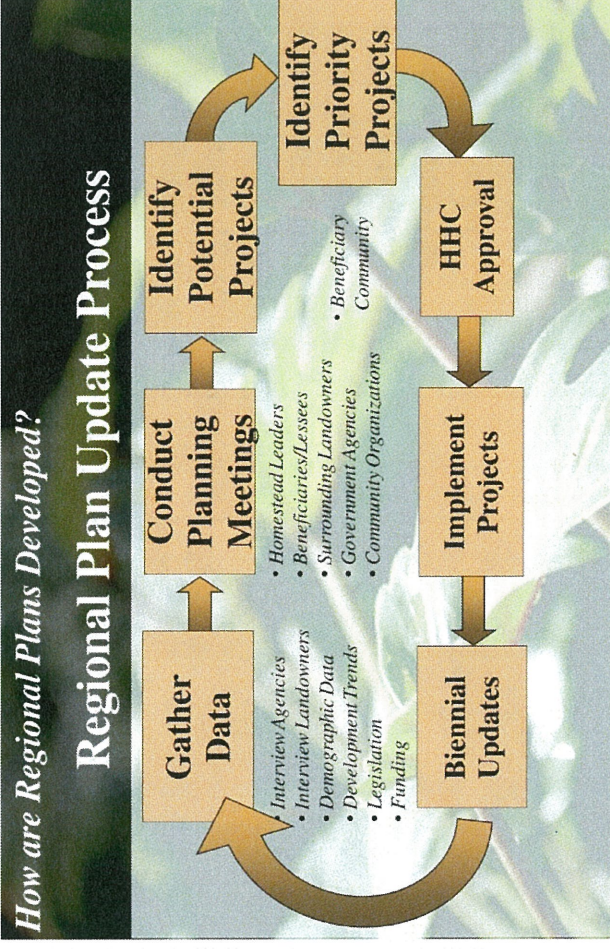

22 Regional Plans Statewide

How Are Regional Plans Used?

- Identifies top priorities for the region that is supported by the homestead community.
- Helps to secure funding for projects.
- Promotes community unity and focuses efforts.

What is in the Regional Plan Document?

- Introduction
- Vision and Values
- Planning Area
- Existing Land Uses
- Infrastructure
- Potential Projects
- Priority Projects
