The State Department of Hawaiian Home Lands (DHHL) is developing a land use plan and environmental assessment (EA) for a homestead community on approximately 365 acres of lands at Hanapēpē, Kaua‘i.

The purpose of the project is to provide residential and subsistence agriculture homesteading opportunities to DHHL’s waitlist beneficiaries.

Join us for a Community Meeting to:

- Learn about the Hanapēpē Homestead Project
- Provide your input on resources and impacts to be addressed in the EA
- Share what you love about Hanapēpē and what’s important to the community

Join us at the open house anytime to talk story with the project team and share your input. Presentations will be given at 10 am and 12 noon (same content for both), followed by group discussion and Q&A.
