(b) If after submittal and processing of documentation described in section 10-3-2.1, there remains uncertainty regarding the applicant's biological parentage because, for example, the appropriate space on the applicant's birth certificate is blank or the listed parent is not the biological parent, the applicant may choose to obtain genetic testing to establish maternity or paternity. The following types of relationship testing shall be accepted:

- (1) Parent-child testing. The testing utilized must have a power of exclusion greater than ninety-nine per cent and a minimum combined paternity or maternity index of five hundred to one.
- (2) Maternal or paternal lineage evaluation.
 - (i) Maternal lineage evaluation. If the alleged biological mother is deceased or unavailable, testing of the alleged mother's living sibling may be accepted as long as they share the same biological mother. Testing utilized must demonstrate shared mitochondria; or

If the alleged biological father is deceased or unavailable and the applicant is genetically male, testing of the alleged father's living brother may be accepted as long as they share the same biological father. Testing utilized must demonstrate shared Y chromosome.
- (3) Avuncular testing. If the alleged biological parent is deceased or unavailable and maternal or paternal lineage evaluation is not applicable, testing of the alleged parent's living full sibling may be

accepted. The testing utilized must have likelihood ratio of no less than 50.0.

If the alleged biological parent is deceased, the applicant shall submit the death certificate. If the alleged biological parent is unavailable, the applicant shall submit an affidavit establishing the reason for the alleged biological parent's unavailability, such as the person being incarcerated, homeless, or having no known location or contact information. To add to the accuracy of the analysis, where the applicant has a known, living biological parent, that person shall also participate in the testing. The department shall accept only notarized and certified genetic test results with proper chain of custody directly from a relationship testing facility nationally accredited by the American Association of Blood Banks (AABB). Applicant shall submit an affidavit from the alleged parent or alleged parent's sibling setting forth facts establishing a reasonable possibility of parentage by the alleged parent.

(d) Genetic testing is entirely voluntary and is not required by the department. Undergoing genetic testing does not guarantee acceptance of the application.

(e) The department shall treat genetic test results as information related to medical history, diagnosis, condition, treatment, or evaluation protected under section 92F-14(b)(1), HRS. The department shall not disclose genetic test results to third parties without the prior written consent of those tested.

§10-3-3.1 Application processing. (a)

Applications are processed in multiple stages, each with a different purpose and effect, as follows:

A complete application shall be date and time stamped a second time. This second date and time stamp shall be used to determine order on the waiting list should the application ultimately be accepted. An incomplete application shall be returned to the applicant with instructions necessary to complete the application properly.
- (3) Acceptance. Upon completion, the department shall review and investigate an application to verify documentation and determine whether the applicant is qualified. The determination shall be based upon the application form and birth certificates, as well as any secondary documents, and additional documentation as may be submitted to the department for verification and qualification. If the department determines, based upon the application form and documentation provided, that the applicant is qualified, the application shall be accepted and signed by an authorized department representative. An

accepted application shall be assigned a numerical designation and filed in order of completion, as determined by the second date and time stamp. The department shall notify the applicant in writing of the acceptance and provide the applicant with a copy of the accepted application. If the department determines that there is reasonable uncertainty regarding an application, the department shall request additional documentation in writing. The department shall, within thirty business days after the application is deemed complete, make an acceptance determination or give notice to the applicant of an extended determination date of thirty business days and the reason or reasons therefor. Failure to render a decision within a thirty day period, as may be extended, shall not result in automatic determination or acceptance by the department.

(b) The department shall maintain written communication with the applicant regarding the status of the application and any time extensions.

(c) An applicant who disagrees with the determination by the department shall have thirty business days from the postmark or e-mail time stamp on the written notice of the determination within which to contest the determination.
