

Statewide General Plan Update

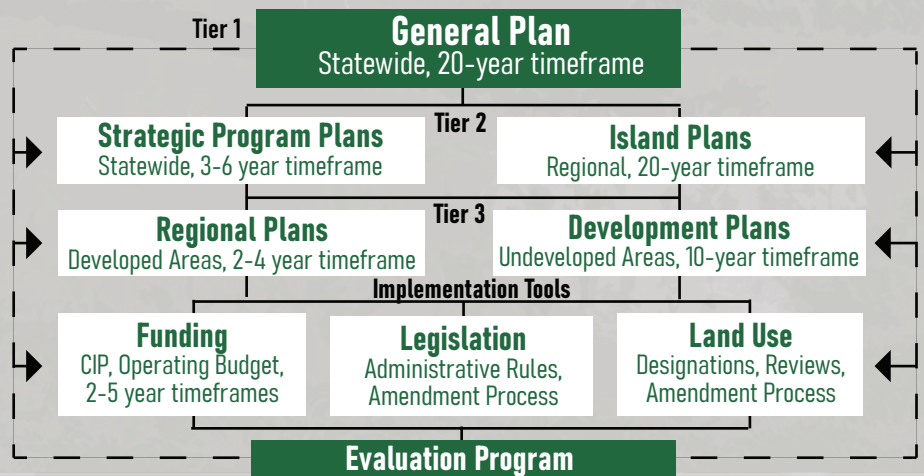

The Department of Hawaiian Home Lands (DHHL) is developing an update for the 2002 DHHL General Plan, which will establish a vision and policies that guide statewide land management and DHHL programs for the next 20 years. As part of the planning framework, the General Plan Update provides a comprehensive policy that ensures coordinated, integrated, and orderly social, physical, and economic development of Hawaiian Home Lands through the establishment of long-term goals, objectives, and implementing actions.

Goal of the DHHL General Plan Update:

To create an innovative and pragmatic plan for DHHL through a process that engages beneficiaries and stakeholders in developing a shared vision and values to guide DHHL's future actions. The plan should be useful to DHHL staff, Hawaiian Home Commissioners, beneficiaries, and decision-makers alike to communicate DHHL's guiding policies and identify measures of success.

DHHL Planning System:

The DHHL General Plan (Tier 1) sets the foundation for all the programs, policies, and plans of the Department, which are then implemented by available funding, federal and state legislation, and land use designations.

The General Plan Update will be consistent with the following provisions of HAR 10-4-55:

- 1) Establish a uniform system of land use designations that all island plans shall use.
- 2) Establish the relationship between land use designations and the applicable types of land dispositions.
- 3) Establish criteria to identify suitable lands for homesteading.
- 4) Establish criteria to determine available lands not required for homesteading within the planning period.
- 5) Establish criteria to identify lands for revenue generation.
- 6) Establish criteria to identify lands for community use and policies to govern how the community could manage such lands for community building.
- 7) Establish level of service standards for infrastructure and community facilities, or specify a program plan or methodology to develop such standards.
- 8) Specify indicators to measure progress and evaluate effectiveness in meeting policy goals.

DHHL's Mission as established by the Hawaiian Homes Commission Act is...

To manage the Hawaiian Home Lands trust effectively and to develop and deliver lands to Native Hawaiians. We will partner with others towards developing self-sufficient and healthy communities.
