Aloha, e kō Moloka'i! Please join us if you want to learn more about the water rights and kuleana of DHHL beneficiaries -- especially given DHHL's Water Use Permit Application for the Kualapu'u Aquifer that is pending before the Water Commission!

With Moloka'i HHCA beneficiaries and homesteaders in mind, Ka Huli Ao will provide a brief overview of Hawai'i's legal framework governing water resources, Delwyn Oki will update the community on USGS' recent Moloka'i ground water study, and DHHL will share about its water policy. We will also discuss specific ways beneficiaries and homestead communities can advocate for the pono use and protection of wai on Moloka'i.
