Dear Lessee:

Subject: DHHL Moloka'i Cesspool Assessments  
Survey Notification and Questionnaire

Governor David Ige signed Act 125 into law in 2017, requiring the upgrade, conversion, or sewer connection of all cesspools in the State before January 1, 2050. It is estimated there are approximately 88,000 cesspools statewide.

The Department of Hawaiian Home Lands (DHHL) is conducting an assessment of active and inactive cesspools throughout the state.

The data collected from this survey is expected to provide an accurate information for officials to determine appropriate funding mechanisms to assist families in complying with Act 125.

This letter is to inform you when DHHL's contractor, Hawaii Engineering Group, will be in your community conducting a field survey of cesspools on Hawaiian Home Lands.

Kapa'akea - March 11, 2022, thru March 17, 2022
