Class Specifications
for the Class:

PLUMBER I

Duties Summary:

Performs skilled plumbing work in the repair, maintenance and installation of plumbing systems and equipment; and performs other related duties as assigned.

Distinguishing Characteristics:

This is the fully competent worker in the series.

This class differs from that of Plumber Helper in that the Plumber I performs a variety of skilled plumbing work as a regular and continuing assignment and may supervise one or more helpers assisting in the work; whereas the Plumber Helper performs duties which are essentially routine and repetitive, as well as manual and semi-skilled, and assists a plumber in the repair, maintenance and installation of plumbing systems and equipment.

This class differs from that of Plumber II in that the Plumber I performs skilled plumbing work in the repair, maintenance and installation of plumbing systems and equipment and may occasionally lead the work of other skilled plumbers, but mainly confines supervision to Plumber Helpers and other semi-skilled or unskilled workers; whereas, the Plumber II, in addition to performing skilled plumbing work as the major work assignment, supervises the work of skilled plumbers as a continuing work assignment including setting the pace and quality of workmanship.

Examples of Duties:

Installs, maintains, and repairs heating, water, and drainage systems in offices, houses, and other structures; installs, maintains and makes minor repairs to cesspools, water heaters, pumps, and other units; installs and repairs plumbing fixtures such as showers, wash basins, urinals, toilet bowls, and toilet tanks; does lead caulking, wipes and tests lead joints; cuts, reams and threads pipe; installs and repairs sprinkler systems; replaces washers in leaky faucets, mends/replaces broken pipes and opens clogged drains; reads blueprints and computes material lists; estimates time and materials needed to perform a job; determines what modifications in plans will be necessary when obstructions are met while installing plumbing; may assign tasks to other plumbers and supervise the work of helpers; may perform duties in other trades when not utilized as a plumber.

Knowledge and Abilities Required:

Knowledge of: Practices and methods in the plumbing trade, including safety procedures and plumbing code; the tools, equipment and materials used in the plumbing trade; plumbing systems and fixtures.

Ability to: Use the hand and power tools common to the plumbing trade; read and interpret blueprints, manuals and diagrams; compute material costs; estimate time and material needed to complete a job; do mechanical work; recognize hazards typical of the work; perform heavy lifting, moving and other manual work typical of the class; understand and follow oral and written instructions.

This is an amendment to the specification for the class PLUMBER I which was approved on September 14, 1984.

This class differs from that of Plumber Supervisor in that the Plumber II spends a majority of the work time in performing skilled plumbing work and, in addition, supervises other skilled plumbers; whereas, the Plumber Supervisor plans, lays out and inspects the work of a group of several skilled plumbers and perhaps other workers on a substantially full-time basis and only occasionally may perform skilled plumbing work.

Requirements of Chapter 104, HRS **Wages and Hours of Employees on Public Works Law**

Chapter 104, HRS, applies to every public works construction project over \$2,000, regardless of the method of procurement or financing (purchase order, voucher, bid, contract, lease arrangement, warranty).

Rate of Wages for Laborers and Mechanics

- Minimum prevailing wages (basic hourly rate plus fringe benefits), as determined by the Director of Labor and Industrial Relations and published in wage rate schedules, shall be paid to the various classes of laborers and mechanics working on the job site. [§104-2(a), (b), Hawaii Revised Statutes (HRS)]
- If the Director of Labor determines that prevailing wages have increased during the performance of a public works contract, the rate of pay of laborers and mechanics shall be raised accordingly. [§104-2(a) and (b), HRS; §12-22-3(d) Hawaii Administrative Rules (HAR)]

Overtime

- Laborers and mechanics working on a Saturday, Sunday, or a legal holiday of the State or more than eight hours a day on any other day shall be paid overtime compensation at one and one-half times the basic hourly rate plus the cost of fringe benefits for all hours worked. [§§104-1(5), 104-2(c), HRS]

Weekly Pay

- Laborers and mechanics employed on the job site shall be paid their full wages at least once a week, without deduction or rebate, except for legal deductions, within five working days after the cutoff date. [§104-2(d), HRS]

Posting of Wage Rate Schedules

- Wage rate schedules shall be posted by the contractor in a prominent and easily accessible place at the job site. A copy of the entire wage rate schedule shall be given to each laborer and mechanic employed under the contract, except when the employee is covered by a collective bargaining agreement. [§104-2(d), HRS]

Withholding of Accrued Payments

- If necessary, the contracting agency may withhold accrued payments to the contractor to pay to laborers and mechanics employed by the contractor or subcontractor on the job site any difference between the wages required by the public works contract or specifications and the wages received. [§104-2(e), HRS]

Certified Weekly Payrolls and Payroll Records

- A certified copy of all payrolls shall be submitted weekly to the contracting agency.
- The contractor is responsible for the submission of certified copies of the payrolls of all subcontractors. The certification shall affirm that the payrolls are correct and complete, that the wage rates listed are not less than the applicable rates contained in the applicable wage rate schedule, and that the classifications for each laborer or mechanic conform with the work the laborer or mechanic performed. [§104-3(a), HRS]
- Payroll records shall be maintained by the contractor and subcontractors for three years after completion of construction. The records shall contain:
 - the name and home address of each employee
 - the employee's correct classification
 - rate of pay (basic hourly rate + fringe benefits)
 - daily and weekly hours worked
 - weekly straight time and overtime earnings
 - amount and type of deductions
 - actual wages paid
 - date of payment
- Records shall be made available for inspection by the contracting agency, the Department of Labor and Industrial Relations, and any of its authorized representatives, who may also interview employees during working hours on the job. [§104-3(b), HRS]

Termination of Work on Failure to Pay Wages

- If the contracting agency finds that any laborer or mechanic employed on the job site by the contractor or any subcontractor has not been paid prevailing wages or overtime, the contracting agency may, by written notice to the contractor, terminate the contractor's or subcontractor's right to proceed with the work or with the part of the work in which the required wages or overtime compensation have not been paid. The contracting agency may complete this work by contract or otherwise, and the contractor or contractor's sureties shall be liable to the contracting agency for any excess costs incurred. [§104-4, HRS]

Apprentices and Trainees

- In order to be paid apprentice or trainee rates, apprentices and trainees must be parties to an agreement either registered with or recognized as a USDOL nationally approved apprenticeship program by the Department of Labor and Industrial Relations, Workforce Development Division. [§12-22-6(1), HAR]
- The number of apprentices or trainees on any public work in relation to the number of journeyworkers in the same craft classification as the apprentices or trainees employed by the same employer on the same public work may not exceed the ratio allowed under the apprenticeship or trainee standards registered with or recognized by the Department of Labor and Industrial Relations. A registered or recognized apprentice receiving the journeyworker rate will not be considered a journeyworker for the purpose of meeting the ratio requirement. [§12-22-6(2), HAR]

- To ensure compliance with the law, DLIR and the contracting agency will conduct investigations of contractors and subcontractors. If a contractor or subcontractor violates the law, the penalties are:

For a third violation, the department shall penalize and suspend the contractor as described above, **except that if the contractor continues to violate the law, then the department shall immediately suspend the contractor for a mandatory three years. The contractor shall remain suspended until all wages and penalties are paid in full.** [§§104-24, 104-25]
- Any contractor who fails to make payroll records accessible or provide requested information within 10 days, or fails to keep or falsifies any required record, shall be assessed a penalty as provided in Section 104-22(b), HRS. [§104-3(c)]
- If any contractor interferes with or delays any investigation, the contracting agency shall withhold further payments until the delay has ceased.
