

WELCOME HOME LENCHANKO ANDRADE FAMILY

The Lenchanko-Andrade Family realized their dreams of homeownership when they received their keys in a ceremony on June 8, 2024. Always living with family, Duke and Keiko could not see a path to where they could own their own place. However, through a partnership with Habitat for Humanity and DHHL, they were able to achieve their goals of homeownership and stay in Waimanalo, the community where Duke grew up. Homeownership for this family was made possible through funding from the NHHBG Program. DHHL's homeowner financing program provided this family with an affordable monthly mortgage payment under \$800.00 for a 4-bedroom/2-bath home which is well below the market rent for the area.

DHHL NAHASDA is proud to welcome the Lenchanko-Andrade Family to their new home where they can raise their daughter and continue to grow their young family!
